

Clerk's Report – Warham Parish Council – 20 July 2023

The grant application for the lighting timers has now gone in. I have applied for £750 of the £910 bill. The £910 is subject to VAT, but we can claim that back. The next time that the deciding committee meets will be September, probably towards the end of the month. K&M have supplied me with figures showing that our unmetered supply will use 44% less electricity once they are fitted. They will switch off at midnight and come back on at 5.30 until it is light.

As you will have seen, a University team intends to carry out a “dig” at Warham Camp during the summer. They talked about having a meeting to talk about the results and I have tried to steer them towards the Reading Room.

I have received notification from the appointed accountants that our annual audit has been accepted.

I have no further news of the affordable housing site but will write to HfW and Flagship before the meeting asking them if they have anything to report.
